Day With the Bankers, the Merchants and the Brokers.

Sharp Reaction in Certain Stocks

Notably True of Southern Trunk Lines, Colorado Fuel and United States Steel Preferred.

NEW YORK, Nov. 59.-Speculative interest was well maintained in today's stock market, and another large day's business was transacted. There were points of aggressive strength in the market, and these included some of the influential railroad stocks. But the greater part of the advances of the day were among stocks of less credit, and sharp

among stocks of less credit, and sharp reactions were suffered by recent influential leaders of the advance.

This was notably true of the great Southern trunk line stocks and Colorado Fuel, which made auch brilliant advances yesterday, and also of United States Sieel preferred. The heaviness of this stock is always an important sympathetic influence on the whole market, and it was less effectively offset by the strength of the common stock today. The latter stock did show good resistance, however, in the reactionary periods of the market.

however, in the reactionary periods of the market.

At one time during the day the reaction was fairly comprehensive and prices were well below yesterday's closing level. For the most part the movement was constantly irregular, sharp advances and dull sagging movements occurring at the same time. The putting out of short lines on the general reaction seemed to afford a basis for the later rally, which also became fairly general.

ines en the general reaction seemed to afford a basis for the later rally, which also become fairly general:

the rise in some of the obscurer stocks tas sensational, and the lack of explanation for them in any news developments appased suspicion of a manipulative original taken in connection with the tinusual number of failures recently among quiside stock dealers and bucket shops, presumably due to commitments on the about side of a rising market, the presumption is suggested that campaigns against known positions of bucket shops on certain stocks are the ground for the manipulated advances in those stocks.

The late strong rise in United States Steel followed the publication of a rumor that the corporation had secured an option on the Lackawanna Steel company. Canadian Pacific was burt by its decrease in October net earnings.

Sterling exchange recovered and London discounts rose, but the price of gold there was further marked down. The call money rate at the stock exchange was forced as low as 2 per cent, late in the day under free offerings, but closed higher.

The regular dividends only on Sugar re-

day under free offerings, but closed higher.
The regular dividends only on Sugar refitted the predictions that a division of the surplus was contemplated, but did not prevent the stock from being one of the features of the rise. The irregular movement of the market continued to the closens.

Bonds were Irregular. Total sales, par value, \$8.035,000.

United States bonds were unchanged on call.

New York Stock Letter.

James A. Pollock & Co., 6 West Second South street, furnish Dick Brothers' stock letter, under New York date of November 29.-The general situation and outlook ontinue favorable to ultimately higher continue favorable to ultimately higher prices on the very favorable underlying conditions surrounding the agricultural situation and the prospect for something in the nature of a boom developing in all lines of general business and the very favorable situation. For these reasons we do not believe the bull movement has yet reached, the stage of the culminating point, and we would, therefore, continue to adhere to the bull side and suggest purchases of any of the good railway and industrial stocks, especially on all soft spots.

Spots.

Hutton's Letter.—It is still a market of specialties, but with a lowering scope, While interest is still largely centered in steel and allied shares, the raliroad stocks acted better today than for some time, giving the market a more uniform appearance. Many inactive issues were brought out today and were aggressively bought, notably Clover Leaf. It is still a bread market, taking all bear attacks and profit-taking sales wonderfully well. Chesapeake & Chito for October reports a gross gain of \$23,000, or 14 per cent, and a net gain of \$34,000, or 15 per cent, in four months of the fiscal year the net has increased \$575,000, or 16 per cent, giving some foundation to the expectancy of an increase in the dividend on which the 20-point advance in the stock in the buil campaign was based.

Joseph's Letter.—It can be said of today's market that at no time was there weakness displayed in any important is sue, and, on the contrary, there was evidence of good buying in stocks like Northwest. New York Central, Pennsylvania, Union Pacific and Southern Pacific We believe more activity and higher prices will be seen in tomorrow's operations. Hutton's Letter.-It is still a market of

er prices will be seen in temerrow's opcrattons.

London—Pennsylvania feature Never
before were so many sheet anchors put
out to windward. In other words, the
fishion is to straddle the market.

Buyers of St. Paul sell un equal amount
of New York Central or some other stock
as a protection, and thus is a big short
interest kept alive. Keep long of Pennsylvania, buy B. & O. and L. & N.

The Steel shares will go much higher
Take hold of T. C. 1. for big coup. We
strongly advise purchases of Distillers'
Securities. They are good for 50. Coppers are being well bought. Amalgamated
is going higher. Buy Montana & Boston.
Specialties—We say buy Distillers' Securities; these are good, so are Corn
Froducts.

The dealers expressed themselves surprised at this Bananas are plentiful and have taken a decided drop in price, being only 20 to 25 cents per dozen. The lover of this fruit certainly has the chance now to gratify an appetite for it, no matter how slim his purse. "I always thought there were plenty of remarked a dealer, "If not in the market at least out of it; but I am beginning to disbelieve even that. We have been looking for crabs and lobsters, but they come not. It has been suggested that we might try the effect of beginning the day's work by singing, 'We Need Thee Every Hour,' for that is a fact, but I fear we will have to keep on waiting for better conditions. The present condition is most unusual.'

Grain and Provisions.

Grain and Provisions.

CHICAGO, Nov. 29—Heavy movement of grain in the Northwest was one of the leading factors in a weak wheat market here today. At the close December wheat was off precisely one cent. May was down be. Corn was off 22020. Oats and provisions are practically unchanged. Influenced by early firmness in the Liverpool wheat market, said to be due to reports of unsettled weather in Argentina, the wheat market here opened firm. December was up § at \$1,07%, and May Serie to Milve at 11,00% to \$1,00%. From the start however, there was free selling by commission houses with Northwestern connections. Pit traders were inclined to follow. A private dispatch deaying untavorable weather in Argentina caused some weakness. Initial quotations marked the high toint of the day prices gradually receding as trading progressed. One of the principal elements in the situation was the accumulation of wheat in store in the Northwest. A report from Minneapolis, stated that stocks of wheat has increased over 60,000 bushels, during the past three days. Cash markees at Minneapolis was extremely weak. In this connection much significance was attached to a rumor that owing to poor demand for flour, all the flour mills at Minneapolis and Milwaukee were lakely to close down. In addition to the beartals stitution in the Northwest. A local statistician's summary of winter whest conditions was a hard low to builts who have been trying to frome alarm out of the drouth in the Southwest. The summary not only claimed the situation to be goed in most localities, but predicted that with a fair amow protection the ary autumn will help the crop, hasmuch as the lack of moisture has forced extra conditions was a hard low to builts who have been trying to frome alarm out of the drouth in the Southwest. The summary not only claimed the situation to be goed in most localities, but predicted that with a fair amow protection the ary autumn will help the crop, hasmuch as the lack of moisture has forced extra conditions was a hard low bushels. December outs opened a shade higher at 29%g23%c, sold between 29c and 25%c and closed at 29%gc. May closed with a loss of the at 31 \$925%c. Local recepts were 124 cars.

Liberal hog receipts and weakness of wheat and corn caused some liquidation of provisions, but prices showed only slight changes. At the close January pork and lard were each off 25%c at \$12.7% and \$1.00. Ribs were a shade lower at \$4.55. RANGE OF THE LEADING FUTURES.

London Wool Auction.

LONDON, Nov. 29.—The sixth series of the 1994 wool auction sales closed today. The offerings amounted to 11,379 bales, including a large supply of scoureds. Prices were maintained. New clips, greasy and hoggetts were in spirited demand and sold at the highest price of the series. Crossbreds sold readily and a few lots were taken for America.

The sales closed firm. Merino was in steady demand throughout the series. Fine greasy merinos advanced 74d and scoureds and medium greasy 5 per cent, while faulty and inferior grades were unchanged. Fine lamb's wool was unchanged, but short stapled lost fully 10 per cent. Fine crossbreds advanced 5 per cent. Fine scoured silpes gained 10 per cent. Fine scoured silpes gained 10 per cent. Fine medium and coarse 19g15 per cent. Fine medium and coarse 19g15 per cent. Inselium and coarse 15 per cent, and short inferior 10 per cent. Cape of Good Hope and Natal wool opened unchanged, later hardened and closed 5 per cent dearer.

by home buyers, 40,000 for the continent and 2000 for America. About 1000 bules were held over for the 1905 sales.

Boston Wool Market.

BOSTON, Nov. 22.—The wool market has been quieter than in recent weeks, with a firm tone prevalent. The quiet tone results from a genuine scarcity of wool in the grades chiefly in demand. The surplus has disappeared and buyers are now seeking for enough wool to supply the trade for the rest of the year.

Territory wools have sold freely in the generally quiet market. Pulled grades are strong at an advance in price. The foreign market is firmer. Quotations strong at an advance in price.
